Owing to intended departure I offer my house and lot in Kingman for sale at a low price. Mrs. J. W. Hyde.

J. W. Marshall, of Mineral Park, spent several days here this week, and reports the mines in that section as looking very well.

Col. B. Moses was in Kingman, Tuesday, for the first time in several months. He is developing his mining claims at Mineral Park.

Hon. David Southwick came down from Stockton Hill Thursday. He is a candidate for the Council before the republican county convention.

The Kingman Soda Works were moved to their new location in the Luby block. The new quarters are much more convenient than the old.

Will. Watkins returned last Tuesday from a several month's visit to California and Nevada and will resume his old position in the drug store.

The Board of Supervisors met Monday. Supervisors Nelson and Johnson being present. The business brought before the Board was finished the same day.

Mrs. J. W. Hyde desires leasing her residence in this place, either furnished or unfurnished. It is one of the most desirable dwellings in Kingman. Terms made known on application.

Capt. W. H. Hardy will be a candidate before the republican county convention for the Territorial Council. The Captain knows the needs of the county and would ably represent the interests of our people.

T. J. Standifer, who has been spending several months in this county, returned to his home at Cisco, Texas, Tuesday night. Mr. Standifer is pleased with Arizona and will bring his family here next spring.

The republicans will give a ball and supper Saturday night. An invitation is extended to everybody to be present. Delegations are expected from Peach Springs, Hackberry and the Needles and a good time is expected.

Judge W. G. Blakely returned Tuesday from a two weeks trip to Tucson and Prescott. He attended the republican territorial convention as a delegate from this county at the former place and the M. E. Church Conference at the latter place.

Dr. W. N. Sherman carried away the first premium at the Albuquerque fair for the best specimen ores from Arizona and New Mexico also the first premium for the best gold and the best silver ore. Another feather in the cap of Mohave county for her mineral productions.

On Wednesday of this week at Holbrook Robert Kennedy, a cowboy, entered the saloon of W. H. Flannigan and fired three shots at Flannigan, who was behind the bar. One shot struck Flannigan in the breast, making a serious wound. Flannigan then drew a revolver and placing the muzzle against Kennedy's breast fired, killing him instantly.

O. F. Kuencer, the efficient Under Sheriff of this county, for the past four years, resigned his office on the first inst. Mr. Kuencer has made a prompt and faithful official, and he will be missed from the Sheriff's office. Sheriff Steen will perform all the duties of the office during the remainder of his term.

Messrs. Richards & Corin present their advertisement to our readers in this issue. They were heavy losers in the late fire but with characteristic enterprise have rebuilt on a larger scale than before. Their stock of liquors has been renewed and their lodging house is the best in town, the rooms are well ventilated and contain the best beds obtainable and everything is kept in first-class shape.

W. H. Lake, the democratic nominee for Sheriff, was in town Tuesday. Mr. Lake was one of the pioneer merchants of Kingman, locating here in 1883, and has been doing a general merchandise business at Stockton Hill for the past four years and has been a successful business man. He is careful and conscientious in his business transactions and is one of our most progressive and go-ahead citizens.

The M. E. Church Conference, held at Prescott, closed its session on Monday, and the appointments as made by Bishop Bowman are as follows: Rev. G. H. Adams, D. D., Supt.; Flagstaff, N. L. Guthrie; Globe, F. W. Downs; Phoenix, N. F. Norton; Prescott, G. L. Pearson; Tempe, J. H. Gill; Tombstone, J. G. Eberhart; Tucson, A. H. Gunnitt; Verde, Z. L. Kay; Benson and Wilcox, J. A. Crouch. Benson, Pinal, Bisbee, Kingman, St. Johns, Tonto Basin and Yuma to be supplied.

That John McGregor is doing all he can to show the rich ores of Mohave county, is shown by the following: "Tipping from the Delaware County Republican, published at Delhi, N. Y.:

John McGregor, of Kingman, Arizona, had on exhibition at the fair here last week a fine collection of different ores from the "Star Spangled Banner" gold mine, the "C. O. D.," "Little Boy," "Silver King," and other silver mines, together with specimens of copper, iron, lead, etc., native near his home, which were regarded with curiosity and interest on account of their rarity by the average "benderfoot" of this section.

### MINING NOTES.

Silver, 94; Lead, \$5.00. Our miners are in good spirits and are satisfied with their work.

There are sixty tons of ore from the C. O. D., on the ore platform at the Sampling Works ready for working.

The Lone Star, at Mineral Park, is producing better ore than ever before. The ore streak is six inches wide but very rich.

It is rumored that a ten-stamp mill will soon be erected on Stockton Hill and that Prescott parties are interested in the matter.

Superintendent Campbell, of the Flores, brought in Tuesday a bar of bullion valued at \$1,500. The recent strikes in the Flores are developing finely, and the ledge is widening and increasing in richness.

E. F. Thompson this week sold the Vanderbilt mine at Cerbat, to a Philadelphia syndicate for \$10,000. Since the first of the year two miners have taken about \$7,000 out of this mine and it is considered one of the best properties at Cerbat and will yield good returns to the purchasers.

At the Sampling Works this week ore was worked in lots as follows: John K. Mackenzie, from the Cupel, had one lot of thirteen tons run through which went 267 ounces per ton, and another lot of twelve tons which went 273 ounces per ton. A lot from Dan O'Leary's new strike on Silver Creek, which went well in silver and gold. T. L. Ayres, a ten ton lot from the Union mine. David Soutwick six tons of gold ore from the Star Spangled Banner. Two carloads of ore from the Cupel are on their way to the Sampling Works.

### The A. & P. Tax.

On the 28th of September, County Treasurer and ex-officio Tax Collector Daniel Smith, served a notice on M. C. Copeland, Station Agent of the A. & P. railroad, at this place, to the effect that if the tax due Mohave county was not paid in accordance with chapter 8, paragraph 2,706; section 80; he would proceed to collect by distress and sale, if not otherwise collected, the taxes due on personal property owned by the railroad company. The law requires the amount to be paid within ten days from the serving of the notice. Just what action the railroad company will take in the matter is not known. County Treasurer Smith has written to Attorney-General Rush, for his interpretation of the law, and his further action in the matter will be in accordance with the opinion of the Attorney-General. In the meantime the people of the county are hoping that the A. & P. will pay the taxes due the county.

### Signal Notes.

SIGNAL, Oct. 2, 1888.

You must excuse your correspondent this time for not writing much as he had a bad cold, but the Lord he is on deck again and in good health.

The republicans held their primaries last Saturday and H. Koshland, W. D. McCright and O. Angsdahl were elected delegates to the County Convention.

Thomas Hallack arrived from his cattle ranch yesterday and reports cattle as fat and fine.

### Happenings at the Hill.

STOCKTON HILL, Oct. 4, 1888. Since my last there have been two carloads of 200 oz. ore shipped and as much more on the dump, at the present writing. The winze is down about fifty-five feet and foreman Daly has put on three eight-hour shifts with the intention of sinking as fast as men and money can do it. As the winze gains depth the ore body increases both in size and richness. As soon as the water is low enough a cross-cut will be completed from the 200-level to the present ore body and if indications go for anything they will produce a carload a day when stoping commences. When the pump starts at the present writing it will take some two weeks to pump the water out, as it will have to drain the old workings and there is about five hundred feet of water to be pumped—something like a subterranean lake. The pump is of sufficient capacity to keep the mine dry when once drained but a large body of water recedes very slowly, something like one inch an hour.

L. J. Lasselle came over from the Flores on Sunday last for the purpose of lowering the pump, and will remain until the water is out.

John Winton gives his undivided attention to the pump on the night shift, while "Scotty" McEwan does likewise during the day.

A Mohave county miner can't be killed. On Monday last J. P. Brittle, while attempting to step across the chute at the 120-foot level, missed his footing and fell to the bottom. The miners in the stope above heard the noise and guessing the cause asked if any one was hurt. "Tex," said "no, not much," and proceeded to crawl out. Many men have lost their lives falling a much less distance.

A few days previous Harry Strawbell fell head foremost down the shaft, from the same level, and strange to say, he landed straddle of the pump, which saved him from the surp, and in a few days he reported for duty. It seems our miners have the faculty of falling down shafts with as little damage to themselves as though their component parts were India rubber.

The Conkey spent Monday evening on the Hill. He wore a 14-inch plug hat and when he got back the C. O. D. mine the hat resembled a Dutch accordion after the musicians have had a spree.

The almond-eyed Asiatic, Ah Ki, has opened a hash foundry in the building owned by Messrs. Taggart & Co. opposite W. H. Lake's store. From the indications there is plenty of room for two boarding houses.

Tommy McMahon has turned lexicographer. The syntax is good, and with a well modulated voice, it is something like Longfellow's "Priscilla," modest, simple and sweet. Some time in the near future the first paper will be read before a Kingman audience, in Taggart's Hall.

The Stockton Hill Glee Club is being organized as fast as voices can be added. In my next I will give you the names of the singers and the voices they possess. It will not be necessary to move the county hospital.

There is a move among the young terschorean men of the Hill to get up a Thanksgiving masquerade, and the outlook is bright. One thing is evident if a few of them will wash, shave, dress, and comb their hair, their disguise will be complete. Pinkerton's detectives could not identify them.

The hottest place this side of Sheol is the pump station in the Cupel shaft. All that is needed for an A. 1. Turkish bath is a crash towel vigorously applied when the skin peels, and like the hippopotamus a perspiration of blood will commence.

George Longhard says that "between the bad air in the winze and one or two local causes, he is uncertain whether he will last until Thanksgiving or whether the red wagon comes before. George says he is neither homesick, love sick or short of money, but in kind of runs in the family, and he has lots of partners on the Hill in the same business.

We have an impromptu ring performance every evening by some one trying to ride W. H. Lake's circus horse to water. The horse usually comes home riderless while the rider hies himself to the cabin and sews up his clothes.

If the soda works are short any bottles they may be found at the trysting place alongside Capt. Hardy's toll road.

OBSEVER.

### Interesting to Ladies.

Our lady readers can hardly fail to have their attention called this week to the latest combination of improvements in that most useful of all domestic implements, the "sewing machine."

As we understand it, a machine for family use should meet all these requirements: It should be simple in its mechanism; it should run easily; it should do a wide range of work; it should be as nearly noiseless as possible; it should be light, handsome, durable, and as cheap as is consistent with excellence throughout.

These conditions the "Light Running New Home" certainly meets. It has several very important and useful attachments and "notions" of its own, which go far to make good its claims to popular favor.

The "New Home" specially recommends itself to purchasers on account of its superior mechanical construction, ease of management and reasonable price. Over half a million have been sold in the last three years, all of which are giving universal satisfaction. This unrivaled machine is manufactured by the NEW HOME SEWING MACHINE CO., of Orange, Mass., and 28 Union Square, New York.
